CANADIAN NATIONAL

A Quiet Hallowe'en.

Thanks to the vigilance displayed by the special men appointed by the Chief of Police for duty in town on Friday night, the youths who try to make Main St. look like the Funny Section, found their activities very much curtailed.

While things were comparatively quiet in town, here, those traveling back to Stony late at night were not quite so fortunate. Motor parties returning from Edmonton encountered quite a large-sized barricade on Stony Plain Rd. near the City limits, and had to take to the ditch to get by; while those coming home from the other direction had to pick their way carefully while passing a large sized pile of firewood on the cut off back of Blueberry church. At the latter place one motorist ditched his car, having come upon the obstacle rather suddenly.

High Schoolers' Hallowe'en Party.

A Hallowe'en party in honor of pupils in the local High school was held last Thursday evening at the home of Mrs. M. Oatway, when riddles, games and pastimes appropriate to the occasion were participated in by all present; a dainty lunch being served toward the close of the entertainment. Among those present were: Mrs. Oatway, Mr and Mrs. Fred L. Tilson, Saunders Everett, the Misses Louis Oppertshausen, Esme Malloch, Maria Clarke, Elsie Goerz, Helma Willie, Ida Fuhr, "Fritzie" Zerber, Ida Zucht, Madeline and Maxine McCulla, Mary Trapp, Violet Goerz, Dot Becker, Muriel Michael, Marie Gannon, Bertha Walton, Mary Miller, Christine Pailer, Edith Oatway, Florence Willie, Anna Horn; Messrs. Louie & Otto Wudel, Esmond Lory, Knox McKinnon, Harold Oatway, P. Comisrow, Walter Carmichael, Eddie Enders.

Injured Horse Is Shot.

One evening last week when a party of hunters were motoring west along the Baseline, to the moose fields, they ran into a horse belonging to Mr. J. Gertsinger, who lives on the road west of town. The equine had its leg broken, but limped along the road a short distance, when, to end its sufferings, one of the party of hunters is said to have fired four shots into his body.

On looking over the scene of the accident next morning, indications seemed to show that the car was traveling on the wrong side of the road and that it had skidded about 50 feet. It is thought probable some action will be taken, if the party who drove the car can be found.

Britain and a Wheat Preference

Whatever hopes may have been entertained by a considerable section of the Canadian people, our Western farmers in particular, that, as a result of the Imperial Economic Conference, the British Government would grant a preference to the wheat of the Dominions through the imposition of a Customs tariff on all foreign-grown wheat, have gone a glimmering with the definite announcement of Premier Ramsay MacDonald that the British Government will not take this action because it cannot be done.

The British Government is extremely anxious to help out the food producers of the Dominions. It is most desirous of promoting and developing Empire trade. It is willing to do everything it can, but it will not place a Customs tariff on the food of its own people because it cannot do so. As an alternative it is giving serious consideration to bulk purchasing of wheat by the Government with a view through such bulk purchasing to giving a preference to Empire-grown wheat.

Undoubtedly there will be regret and disappointment in this country over Britain's decision. It is to be hoped such feelings will not be allowed to develop into anything approaching bitterness or antagonism towards the Old Country. Canadians generally should strive to understand and appreciate the British position. They should realize the facts of the situation.

In Great Britain this is not a political issue in a partisan sense. Liberals, Conservatives and Labour are all of one mind that, whatever preferential policies may be evolved at this time, they cannot include taxation of food supplies. Mr. Baldwin, who is more favorably disposed towards adoption of a policy of tariffs than either Ramsay MacDonald or Lloyd George, nevertheless made it clear he did not include tariffs on wheat and other food supplies and raw materials in his programme.

Here is the situation. Great Britain is a country small in area but with a large population. It uses only a small fraction of the food its people require. It is a highly industrialized country, yet the variety of its natural raw products for purposes of manufacturing industry is small and strictly limited. It acquires the world for food supplies and raw products in order that it may exist. In order to pay for such food supplies and raw materials it must sell its manufactured goods abroad. Taxing its food and raw materials would so increase costs of production that it could not compete with other nations engaged in manufacturing but which likewise possess large food producing areas and needed raw materials, as, for example, United States, Canada, Germany.

Now consider Britain's trade position with two countries, Canada and Argentina, by way of illustrating the position of the Old Country. Both countries have large surpluses of wheat for export; both are anxious to sell in the British market. Britain has two main articles she is anxious to export in large quantities—manufactured goods of all kinds and coal. The Argentine lacks coal, and is prepared to purchase it from Britain in exchange for wheat. Canada, on the other hand, is rich in coal deposits and is averse to large importations of coal from Britain entering into competition with Canadian miners. The Argentine is not a large manufacturing nation, and is prepared to purchase extensively in Britain, selling her wheat and meat products in exchange. Canada, on the other hand, is a manufacturing as well as an agricultural country. Its production of manufactured goods per head of population is one of the highest in the world. Canada is capable of manufacturing not only all the steel, textiles, boots and shoes, paper, automobiles, and a multitude of other articles required by her own people, but enjoys a large export trade in manufactures of all kinds. Canada, therefore, taken as a whole is not anxious to take manufactured goods from Britain in exchange for wheat, meats, and various raw materials.

Therefore, notwithstanding a sentimental desire to favor Canada as a sister nation of the Empire, Britain simply cannot afford to impose a tariff against the Argentine and jeopardize her profitable trade with, and her huge investments in, that country. As Premier Ramsay MacDonald has stated: "We cannot do it."

The Americans, North and South, are food-exporting countries, with wheat the big item; so, too, is Australia. New Zealand, India, and so on. Russia been in the past and will be in the future. China and Japan need food, but the economic position of vast millions of their people is not such as to enable them to buy high priced imported food products. Her people are being forced to raise more grain for themselves, or go without. Their Governments are making them do so as a national necessity to prevent the exportation of money abroad which the nations must retain at home.

In the circumstances, what is Britain to do? Further restrict the markets for her manufactured goods by imposing tariffs against those countries which are prepared to buy her in exchange for the sale of food and raw materials, thus intensifying her own unemployment problem and at the same time increasing the cost of food to her people and of needed raw materials for her industries?

The British Labour Government says "it cannot be done." The British Liberal party says "it cannot be done." The British Conservative party, while favoring tariffs to "safeguard" Britain's industries, says in regard to food and raw materials "it cannot be done." It is, we repeat, not a political question in a party sense in Great Britain; it is an economic question.

And in Canada, whatever our sentiments, desires, interests, or political views and opinions may be, it is just and right that we should at least look at and appreciate the British point of view.

More Cigarettes Used

Report Shows People In United States Consuming More

The people of the United States are smoking more and more cigarettes. Last year they consumed about 1,000 per man, woman and child, but the reports for the first eight months of this year show an excess over those of the same period for last year of 200,000,000. Benjamin D. Hill, chief of the tobacco division of the Department of Commerce, assumes that the increase will continue until the end of the year.

In times of business depression or periods of great stress, it has been the experience of the tobacco industry, that consumption of cigarettes increases.

Worms, by the irritation that they cause in the stomach and intestines, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm-Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutriment of the child is assured and development in every way encouraged.

Wild Life Valuable

Canada realizes quite a revenue each year from its wild life. According to Dr. H. F. Lewis, of the Department of the Interior, this wild life has a capital valuation of one billion dollars and a yearly business turnover of about \$45,000,000. This valuation includes the fur harvest, game fish, and their influence on sales of sports goods.

Douglas' Egyptian Liniment is unrivalled for speedy relief in muscular rheumatism, lame back, inflammation, burns and felons.

Western Canadian Crop

The Government estimate of the wheat crop of Western Canada is 325,000,000 bushels, whereas the total crop of all Canada last year was only 304,520,000 bushels.

CHRONIC THROAT ILLS

have been relieved by Minard's time and again. It also relieves strains, wrenched muscles, proud flesh, burns or scalds.

Finishing Livestock For Market

Beef Organization In Lethbridge Area Expect a Successful Year

With the satisfactory results of the feeding efforts of the past, coupled with a lower priced cattle and a good supply of feed at reasonable prices, a lot more cattle will be put in prime condition for killing in the Lethbridge area this year than ever before, according to estimates of the Red Label beef organization, which expects to improve upon last year's successes.

ARE YOU USING UP YOUR NERVOUS ENERGY?

Do you feel tired? Are you troubled with headaches, a poor appetite, irritability and a lack of ambition? If so, it is probable you have been using up too much nervous energy—you have been going full steam ahead without feeding the nerves.

Nerves that have become weakened and shattered through overwork or worry need nourishment—the nourishment gained through rich, red blood. Good blood feeds the nerves and gives them greater vigour and vitality.

No other medicine has been so successful in treating nervous disorders as Dr. Williams' Pink Pills. Their sole duty is to enrich and renew the blood. That is why they are the ideal nerve tonic. They are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canada's Wooden Ships

The building of wooden ships in Canada reached its maximum development in 1895, although in 1892 Quebec alone had 25 shipyards, and eight floating docks, giving employment to 5,000 workers.

WHEN FOOD SOURS...

Sweeten the Stomach
instantly

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless liquid; pleasant, efficient and harmless. But it kills excess acids. It has remained the standard with physicians for more than 50 years.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know

Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for over fifty years in correcting excess acids. 50¢ bottles—any drugstore. The genuine is always a liquid—never made in tablet form. Look for the name Phillips' on wrapper and bottle.

So Many Home Uses!

Keep foods fresh longer by covering them with Para-Sani.

Use Para-Sani to keep food fresh.

Keep the freshmeat in sandwiches prepared the party with a covering of Para-Sani.

YOU'LL FIND A hundred vital saving uses for Para-Sani Heavy Waxed Paper in your home. Comes in handy, sanitary, knife-edged packages. For less exciting uses: "Centre Pull" Waxed Tissue (flat sheets). At grocers, druggists, stationers.

Advancement Made In Canada For Providing Indian Population With High Standard of Education

(By Russell T. Ferrier, Superintendent of Indian Education).

Great advancement has been made in Canada, particularly of late years, in providing our Indian population with a high standard of educational and vocational training. Through the aid of increased appropriations by Parliament during that time, the Department of Indian Affairs has been enabled to enlarge existing buildings, and construct more modern and fire-proof schools whilst higher salaries and grants have attracted better qualified teachers and instructors.

There are now 78 residential schools and 272 day schools, making a total of 350 centres of Indian educational activity. The total number of pupils is now 15,743, the average attendance being 11,579, constituting an increase during the past ten years of 28 per cent. in enrolment, and 48 per cent. in attendance, ample evidence of the success of the work in preparing Indian children to become independent and self-supporting citizens of the Dominion.

The residential schools are conducted by the Anglican, Roman Catholic, Presbyterian, and United churches, and high tribute must be paid to the zeal and self-sacrifice of those engaged in the work. The Department has had the co-operation of religious denominations in the education of the Indians, and this well-established policy has demonstrated beyond all question of doubt the effectiveness of the system.

The formal opening of the modern residential school at Brandon, Manitoba, on July 18, 1930, adds another unit to the fine system of Indian educational institutions throughout the Dominion. It will be administered by the United Church of Canada and will have as its principal the Reverend J. A. Doyle, D.D., who succeeds the veteran educationist the Reverend Thompson Ferrier.

This school, which replaces the residential school built on the same site in 1894, is one of the finest of its kind in Canada. Built of tapestry brick with trim of Manitoba limestone, and terrazzo floors, it is fire-proof throughout. Some idea of the accommodation afforded may be gleaned from the fact that it has a fine large assembly hall, four dormitories, four class-rooms, a large study room, recreation rooms for both girls and boys, sewing room, sunroom, hospital ward with nurses' quarters, also a laundry equipped with the most modern hygienic appliances.

Adjacent to the school are a number of first-class farm buildings, one of which, the cow-barn, is one of the finest in Manitoba. There are also, four residences for the use of the principal and married members of the staff.

The institution has a landscape setting, which places it on a par with some of the finest schools and colleges of the older provinces.

This school draws its pupils from a wide radius, owing to the scattered location of the reserves. Residential schools are required because many of the Indians are engaged in occupations such as lumbering, fishing, freighting, and trapping, which take them away from their homes; and even the farms of those engaged in agriculture are not in solid blocks, as in white settlements, but are strung out along rivers and lakes, thus making it impossible to provide day-school accommodation for the major portion of them.

The curriculum provides academic instruction equivalent to the second

year in high school. In addition the girls are given a thorough training in domestic science, and the boys, a course in agriculture, together with elementary training in carpentry, blacksmithing and the operation of internal combustion engines, sufficient to enable them to apply it in a practical manner in modern farm life.

While every possible effort is made to impart a sound academic and industrial education, special attention is given to the health of the pupils. During the years spent in the residential schools medical treatment is provided, which, with a balanced diet and supervised recreation, assists in the building up of a robust constitution.

Under the care and tutelage of the Department of Indian Affairs the prairie Indian has now become a successful agriculturist. The official records for 1928 show that 65,104 acres, in the Prairie Provinces alone, were sown to grain, from which were garnered 45,194 bushels. In addition 971 acres were planted to root crops from which 61,448 bushels were harvested; and 87,766 tons of hay and other fodder were produced.

(By Annette)

LOTS OF STYLE AND CHIC FOR YOUNG

Look how attractively the knitted plaits are arranged? They are set on the bodice that joins the skirt in tricky pointed outline. It gives it distinction and individuality.

The simple long-waisted bodice belies its waistline at normal. The sleeves show smart detail in slight fullness toward the wrist.

Plain blue rayon woolen is charming trim against the white red crepe woolen with dark blue dots used for the original Paris model.

Style No. 915 is designed for girls of 8, 10, 12 and 14 years.

Wool jersey, covert cloth, feather-weight tweed, rayon, crepe, linen, tweed printed cottons and wool wallis prints are smartly appropriate.

Size 8 requires 1 1/2 yards 54-inch with 1/2 yard 35-inch contrasting.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Screening Feeds Officially Graded

Low Prices Should Make Them Favourite For Farmers

Canadian farmers will be particularly interested in the following statement issued by the seed branch of the Dominion Department of Agriculture:

Screenings shipped for feed from terminal elevators are now being sold under grade certificates, under the new grade standards and designations provided by the Canada Grain Act or regulations thereunder.

Standard reconditioned screenings, consisting essentially of broken wheat and wild buckwheat, are now designated "No. 1 Feed Screenings."

A second quality of these screenings which, in addition to the wheat and wild buckwheat, may carry appreciable quantities of wild oats and coarse grains, is designated "No. 2 Feed Screenings." This grade also allows a slightly greater tolerance of bell mustard than No. 1 grade, and will be specially serviceable for feeding sheep.

The product formerly known as "Oat Scalpings" and consisting mainly of wild oats, but with small percentages of domestic oats and barley, is now designated "Mixed Feed Oats."

Terminal elevators, needed for the storage of wheat, are carrying substantial quantities of these grain by-products which are, in consequence, being offered at much lower than the usual prices. Mixtures of barley and wild oats, finely ground, are available at 89 cents per cwt. sacks included, delivered at Montreal, Sorel and Quebec.

Any danger from the presence of weed seeds in these nutritious grain by-products would be corrected reasonably well by fine grinding with high power hammer grinders, and this fact, together with the low prices at which they are now available should render them profitable to the Canadian feeder, even at the present low prices for animal products.

Pure Bred Stock

Four Ayrshire Heifer Calves Go To Experimental Station At Windermere, B.C.

Four Ayrshire heifer calves which were purchased by Capt. Dun Waters of Pimby, B.C., at the recent draft sale of Ayrshires at the University of British Columbia, have been offered to and accepted by Dr. E. S. Archibald, Director of Experimental Farms on behalf of the Dominion Experimental Station at Windermere, B.C. These heifers—Auchendrane Minstrel's Fanie, Muncraig Valen's Polly, Netherhall's Lovely Mendella and Netherhall's Majestic Beauty were all imported in dam and are of exceptionally good breeding.

Fickle Lovers

Thousands of hearts were broken in England since January 1, 1930, the office marriage certificates reveals. Figures from this office show that more than 2,300 licenses were returned by fickle brides and bridegrooms since that date.

A working man's family spends on the average, \$140 a year on doctor's bills and other medical expenses, according to a statement from the U.S. Department of Labor.

Says Security Of Our Future Depends On The Courage Of Farmers Of Western Canada

Soil Improvement Train

Campaign In Quebec For Securing Greater Yields

A soil improvement train has just completed its three week itinerary through southeastern Quebec, having started at Coteau on September 15th and finished at Vercheres on October 4th.

The train was organized by the Quebec Department of Agriculture in co-operation with the Agricultural Colleges in the province, the seed branch of the Dominion Department of Agriculture, and the C.N.R., and was part of a campaign now under way in Quebec for securing greater yields from a more intelligent and more general use of agricultural lime and commercial fertilizers.

Of the four coaches which made up the train, the first was used as a laboratory where samples of soil brought in by visiting farmers, were tested for acidity, and recommendations given as to the approximate quantities of lime required according to the results of the acidity tests.

The second car was devoted to demonstrating the advantages from the proper use of agricultural lime; the third, those of commercial fertilizers, while the fourth was the lecture car in which lectures were given by the officials in charge on the use of agricultural lime and commercial fertilizers.

Upwards of 10,000 farmers visited the train in the course of its tour and about 5,000 soil samples were tested.

Glasgow Port Opened For Cattle Shipments

Rate Is \$15.00 Per Head From Canadian Atlantic Ports

Two important developments in the cattle export trade occurred when Hon. Robert Weir, Minister of Agriculture, announced that the steamship companies had agreed to open a service from Canadian Atlantic ports to Glasgow at a rate of \$15 per head. Hereafter, the cattle boats have gone to Liverpool. Mr. Weir has said the shipping companies to fall into line on ocean rates, at a level of \$15 per head. One of them had been charging \$20.

He regards the opening of the Glasgow port, centre of a large feeding area, as of importance. The Scottish cattlemen, he said recently, are more interested in buying feeder stock, while the Liverpool trade desires fat cattle ready for killing.

Confirmed Criminals

Dr. Sheldon Glueck, assistant professor of criminology at Harvard law school, has reported that results of a recent survey tend to show four-fifths of the prisoners at the Massachusetts state reformatory fall back into crime at least once within five years of their parole. The report covered the records of 500 prisoners, released between 1911 and 1922.

Open New C.P.R. Offices

Windsor. Inset shows His Honor Cecil E. Jackson, Mayor of Windsor, who cut the ribbon that served to tie the front entrance of the building.

Urging the people of eastern Canada to lend their moral support to the citizens of western Canada during their present trying period, E. B. Ramsay, chief commissioner of the Canadian Board of Grain Commissioners, addressing the Canadian club at Toronto, recently, declared that upon the courage of western farmers to keep to their land and maintain production lies security in the future.

Farmers must be encouraged to continue to produce until consumption had grown to absorb production. "Western Canada today is well up against it," Mr. Ramsay said. "There is no doubt about that. They have had two unprofitable crops on their hands, the first due to short production and the second to very low prices."

Continuing, the speaker declared the western provinces were in need of help. "I do not mean monetary help," he said, "for the west will always pay its debts as it has done in the past. But it needs the moral help of every man and woman in Canada to tide over its present difficulties. The thing of prime importance now is to keep the western farmer in full production until consumption increases to take care of it."

"I have noticed that those who have expressed views on the market, are wrong five minutes after they start," Mr. Ramsay said. "I don't think anyone knows anything about it. We are doing a good export business in Canada. If that keeps up the heavy carryover from last year may be diminished."

"Last year it was the fashion to blame conditions on the wheat pool. This year, it is Russia. I don't think they have had much to do with it. It was just one of those periods of liquidation that happened from time to time."

Easterners were inclined to underestimate the ability of western farmers, he contended.

"There are a great many statements flying around in the press and on the streets which seem, I believe, to credit the western farmer with little common sense or gumption," he said. "My own experience is that the western farmer is a very fine type of business man."

"He is not going to be stampeded and he is not going to abandon his farm. I have always thought that the biggest difficulty the western farmer has is an assurance of the stability of his tenure on the land; in other words that his work was going towards the building up of his home."

"He doesn't want to have to move. There is a saying in the west that two moves on a farm is as bad as a fire, that money will be lost."

"It is a fact that he holds in his own power a great deal of ability to lower the cost of production. He can live off the land and he will do that before he will leave his farm."

Mechanized farming to introduce large-scale operation in western Canada would mean national disaster, in Mr. Ramsay's opinion.

"I think that there is a real place on the farm for some mechanical assistance," he said, "but I think it would be a national calamity if the farm home gave way to mechanized farming."

"We need that population on the prairies. The big difficulty this country must face is to keep those people on the land until conditions remedy themselves."

"Darling, listen to my plea." "But you are too old for me. I will think over it until tomorrow." "But I shall be older tomorrow."—Musket, Vienna.

HEADACHES

Ended by Kruschen

"I was a martyr to headaches with frequent attacks of dizziness affecting my vision. My occupation is a very sedentary one—a printer's reader. I gave Kruschen Salts a good trial, and from then onwards I seemed quite another person. The headaches disappeared and the dizziness ended. The most wonderful thing to me is that I have gone back to weaker glasses, a lens which I had discarded some years ago as not being strong enough. I also suffered from bad circulation during the early morning of winter. Now at 58 I can enjoy cold baths all the year round, enjoy and am eager for my food, and am what I consider very fit—the sort of fitness that makes living a joy."—(G. F.)

Headaches can nearly always be traced to a disordered stomach or to partial constipation. A complaint many indoor workers suffer from without ever suspecting it. Kruschen Salts go right down to the root of the trouble and remove the cause by gently persuading the organs of elimination to function exactly as Nature intended they should.

WORLD HAPPENINGS BRIEFLY TOLD

A flight from Montreal to Paris in the spring of 1931 is the hope of Rudolph Page, French-Canadian private and commercial pilot of Montreal.

The end of the present season will find the air operations of the department of the Ontario forestry branch with a new record of over 14,000 hours flown during the year.

Edmund A. Guillon, 17-year-old American youth, won the fifth International Ontario contest held at Washington, Pa. Lucie, 17-year-old French-Canadian, was second. Youths of eight nations competed.

General V. I. Karpoof, one time commander of the Chinese military forces at Tientsin, under the late Marshal Chang Tso-Lin, has abandoned his military career to become a monk.

W. B. Lambie, the British Government's assistant deputy trade commissioner in New Zealand, has been transferred to Canada, and will take up his duties in Winnipeg in December.

Empire delegates to the Imperial conference saw 37 different types of British aircraft in action at Croydon Airport, England. Prime Minister Ramsay MacDonald witnessed the air performance, executed in honor of the overseas visitors.

Question of more severe penalties for the adulteration of butter under the consideration of Hon. Robert Weir, Minister of Agriculture. A request for such action was recently made to Major Weir by the Montreal Produce Association.

An Oil For All Men—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicines and be amongst those taken on a journey.

Keeping Down Weeds

Good Work Carried On In Alberta This Year In Connection With Weed Eradication

Good work was done in Alberta this year in the keeping of soil free from weeds, it was reported at a meeting of the advisory weed board at the Parliament Buildings at Edmonton. The activities of sixteen supervisors were reviewed under the direction of E. L. Grey, field crops commissioner. Recommendations from the board will go to the Department of Agriculture as to next year's work, for which some important undertakings will be suggested.

Another form of endurance test is the pursuit of happiness.

CORNS RELIEVED instantly!

Has Faith In Sub Trip

Stefansson Believes Wilkins' Voyage To Pole Will Be A Success

Vilhjalmur Stefansson, who has spent most of his life in the Arctic circles, is firmly convinced that Sir Hubert Wilkins' voyage to the North Pole in a submarine will be a success. Sir Hubert was second in command during Stefansson's 1913-1916 Arctic expedition.

"I am an insurance agency," he said, "and were to write a policy on Wilkins and his party, I would insure them for less in a submarine trip than I would in a polar flight in an airplane."

"The reason I believe the experiment will work out is that there are no icebergs within 400 miles of the North Pole. There are ice floes, but those floes are of no great depth and a submarine might easily pass under them."

"Many people think the Arctic seas are infested with icebergs. This is not the case. If it were true, then such an undertaking as Wilkins suggests would be impracticable, for icebergs have a depth of a thousand feet or more."

Crying Babies Are Sickly Babies

The well child does not cry. He is laughing and happy all the time. Baby's cry of distress is the only means he has of telling the mother or nurse he is ill. Mothers, you can keep your little one well and happy by giving them Baby's Own Tablets—the safe and efficient remedy for all childhood ailments. Baby's Own Tablets are a mild but thorough laxative. They sweeten the stomach, regulate the bowels, thus banish constipation and indigestion; break up colds and simple fever, and allay the irritation accompanying the cutting of teeth. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Purebred Bull Purchase Act

Alberta Farmers Are Taking Advantage Of Provisions Of New Enactment

Farmers of Alberta in considerable numbers are taking advantage of the provision of the Purebred Bull Purchase Act passed at the last session of the Legislature. An unusual feature of the situation, it is pointed out, was the fact that many applicants sought Red Polled bulls, which had not been much in demand in the past. Dairy Shorthorn bulls were also in demand. It is considered that the present movement is a good sign, indicating a return to diversified farming.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Caramel Pudding

One of the most delicious desserts one can serve, and it is one especially loved by children. It is called Caramel Pudding. Here it is:

"Place an Unopened can of Borden's Eagle Brand Condensed Milk in a kettle of boiling water and simmer for two and a half hours, being careful not to let the kettle boil dry. Remove can, cool and chill. Remove top of can, cutting along the side of can—not the top—so that the contents may be removed whole; place on a serving dish and garnish with broken nut meats and whipped cream. To serve individually, cut in slices, garnish with nut meats, and whipped cream—or use plain unsweetened cream, with or without garnish."

Didn't Want That Kind

Agent to (Actor): Then we'll consider that settled.

Actor: But—er—what about the contract?

Agent: Oh, that's all right. A verbal contract'll do.

Actor: Laddie, listen. The last time I had a verbal contract I drew a verbal salary!

"But Madam, you cannot marry again. If you do, your husband has clearly specified in his will that his fortune will go to his brother."

"Yes, I know. It's the brother that I'm marrying."

Banish pain with Minard's Liniment.

Quick Relief for CONSTIPATION BILIOUSNESS SLUGGISHNESS

Tenth Anniversary Of Radio Broadcasting

Although Opportunities Were Restricted Development Has Been Rapid

The tenth anniversary of radio broadcasting, which gave the industry its greatest impetus, was celebrated a few weeks ago. The first program went on the air from a Pittsburgh station in 1920, and some weeks later this same station introduced radio to politics by broadcasting returns of the Harding-Cox election. Crystal-detector sets were then the last word in reception, and it was necessary for members of the family to take turns at wearing the earphones. Restricted as were its opportunities, however, broadcasting developed so rapidly that within a few years the air was overcrowded and the Government was seeking some form of regulation.

The substitution of electrified vacuum-tube sets for those with crystal detectors and the replacement of earphones with loud speakers, together with other improvements, greatly increased the range and quality of reception. Television today is scarcely more of a novelty than broadcasting was in 1920. These developments have created great industries.

WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellowing and that tired and languid feeling? This indicates a torpid liver. Headache, Dizziness and Biliousness surely follow. You must stimulate your lazy liver, start the bile flowing with Carter's Little Liver Pills. They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow, and not habit forming. They are not a purgative that cramps or pains, unpleasant after effect following, but on the contrary a good tonic. All Druggists 25c and 75c red pkgs.

First Compound Steam Engine

The first compound steam engine was invented in Canada by Benjamin Tibbits, who used it in the steamship "Reindeer" which he designed and built at St. John, N.B. This invention, by reducing the amount of fuel required, revolutionized marine transportation.

Largest All-Canadian Lake

Great Bear Lake in the Mackenzie district of the North West Territories, Canada, is generally admitted to be the largest body of the lakes wholly within Canadian territory. Its area is approximately 12,000 square miles.

TWICE BENEFITED BY SAME REMEDY

Recommends Lydia E. Pinkham's Vegetable Compound

Chester, Ontario—"Years ago when I had a sick father and a nursing baby to care for, I got weak and not able to do any work. I took Lydia E. Pinkham's Vegetable Compound to get strength to do my work. Another time at Change of Life, I had severe headaches and felt tired all the time. I took Lydia E. Pinkham's Vegetable Compound and felt like a new woman. Compound and felt like a new woman. Compound and felt like a new woman."

Compounded and felt like a new woman. Compound and felt like a new woman. Compound and felt like a new woman."

SUNDAY SCHOOL LESSON

NOVEMBER 9

THOMAS—THE HONEST DOUBTER

Golden Text: "Thomas answered and said unto Him, 'My Lord and my God.'"—John 20:28.
Lesson: John 11:14-16; 14:5-8; 20:24-29; 21:1, 2.
Devotional Reading: Proverbs 3:13-20.

Explanations and Comments

Thomas the Pesimist, John 11:14-16. Read John 11:13.—"When Jesus told the disciples that Lazarus was fallen asleep, they took his words literally, and He had to tell them plainly that Lazarus was dead. And then Jesus added words that at first sight seemed strange: 'And I am glad for your sakes that I was not there, to be intent ye may believe.'"

He had first heard of the sickness of Lazarus. He said, "This sickness is not unto death, but for the glory of God, that the Son of God may be glorified thereby." It was for Jesus in great opportunity to render service and inspire faith.

"Let us intend," thus Jesus announced, "His intention of going to Bethany. Thomas who is called Didymus, 'Tadymus means twin,' was certain that death would be the fate of Jesus if He were seen at Bethany. Thomas, however, he said to the other disciples, 'Let us also go, that we may die with Him.'"

Thomas the Practical, 14:5-8. Read John 14:1-4.—In His last discourse with His disciples Jesus told them to prepare a place for them in His Father's house. When He said, "And whither I go, ye know the way," Thomas expressed his failure to understand the words: "Lord, we know not whither Thou goest; how know we the way?" Thomas was still expecting Jesus to establish an earthly kingdom, and this obsession prevented him from grasping the meaning of His Master's words. "I am the Way, the Truth, and the Life," Jesus answered, "who Kingdom which have come to reveal, is not an earthly one; the mansions of which I have spoken are in heaven, not on earth. To share in my Kingdom is to share that state of exalted and blissful communion the Father, which is not possible on earth. I depart to heaven, to enter that state of bliss; and you may follow and enjoy it, too, if you will have faith in Me as the one Mediator between God and Man the Way, the Truth, and the Life."

Thomas a Kempt, 20:24-25.—Read the account of His appearance in the evening to His disciples, John 20:19-23. Thomas was not among them at that time: he was the only apostle who refused to believe that first Easter was not Easter. He would not credit their report that the putting of his finger into the print of the nails, and his hand into His wounded side—would convince him of the stupendous miracle as the resurrection of His Lord.

Thomas Convinced, 20:26-29. Again Thomas appeared and after the customary greeting "Peace be unto you," He turned to Thomas and said: "Reach forth thy finger, and see my hands; and reach hither thy hand, and put it into my side; and be not faithless but believing."

Another Proof Given Thomas, John 21:1, 2.—Peter, Nathaniel, James and John, Thomas, and two other disciples were back in Galilee. In the old haunts. By the Sea of Galilee Jesus manifested Himself to them; this was the occasion of which we learned in our lesson last week, when Jesus forgave Peter.

For Dry Skin—Minard's Liniment.

Alberta Sugar Factory
The refinery of the Canadian Sugar Factories Limited at Raymond, Alberta, will likely be kept working up to the end of January, the crop of beets having been heavy this year in the neighborhood of 11,000 tons. Slicing of beets began September 25th last.

Persian Balm quickly relieves chapping, withering and all roughness caused by weather conditions. Keeps the complexion clear and lovely. Completely absorbed, without greasy residue. Never leaves undesirable stickiness. Stimulates the skin. Makes it soft, smooth and flawless. Preserves and enhances natural beauty. Soothes, refreshes and invigorates. Makes hands soft, flawlessly white. Imparts that subtle charm so essential to true elegance.

Alberta Oil Development

An English group, Anglo-Western Oils, has entered the Southern Alberta oil development and will start by drilling two wells in the Milk River field shortly.

Gom Will Be Priceless
A ruby said to be a wonderful gem weighing about 100 carats has been found in Mogok, upper Burma. Great secrecy is being maintained about the discovery but it is said the ruby is flawless and of excellent color. If this is the case it will rank among the world's most priceless gems.

Bread Of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are ward off, leaving the afflicted one in a state of peace and happiness. He once believed he could never escape. Inexpensive and sold almost everywhere.

When a vehicle zipped by in the old days, it meant that some horse was feeling his oats—not that some ass was feeling his rye.

Georgetown, British Guiana, has installed the only semi-automatic waterworks in the world.

Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there is always Castoria Harmless as the recipe on the wrapper, mild and bland as butter. But its gentle action soothes a youngster more surely than a more potent medicine.

That's the beauty of this special children's remedy! It may be given the tiniest infant—at once as there is need. In cases of colic, diarrhea or similar disturbance, it is invaluable. A cooled tongue calls for just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed.

Fletcher's CASTORIA

SUGGEST BONUS TO ASSIST THE WHEAT FARMER

Ottawa, Ont.—A proposal that the Dominion Government grant a bonus to western wheat farmers whose wheat crops were caught in the rain and snow storms this fall is being given serious consideration by the Department of Agriculture. It costs three cents a bushel to dry tough wheat and five cents a bushel to dry damp wheat.

The proposal which the department has under consideration is said to be that the Dominion offer to pay one and a half cents a bushel on the grain caught in the storms if the province would pay a like amount. Should Hon. Robert Weir, Minister of Agriculture, decide to recommend to his colleagues that the government make such an offer, it would be accompanied by the provision that it would only apply to a limited number of bushels for each farmer.

The misfortune of having the crops injured by rains has made more acute the situation of the prairie farmers, already serious because of the low price grain is bringing. It is known that Mr. Weir has been studying every suggestion to cope with the difficulty regardless of from where the suggestions come.

Hon. George Hoadley, Alberta Minister of Agriculture, suggested that the Dominion Government provide free drying facilities at the terminal elevators. This has been studied by the Federal Department and it is understood many obstacles presented themselves, one was the vast amount of bookkeeping that would be necessary to differentiate between the wheat entitled to free drying and that which would be paid for. Often in drying, wheat becomes bleached, and suffers loss of a grade. The question would arise whether the government, in case of free drying, would be liable for loss caused by such improper drying. Experts estimate that much of the wheat caught in the rains would maintain 30 per cent. moisture. The point has been raised whether it would be economical to transport all this wheat to terminal elevators whether it would not be much more profitable to feed it as it is.

One problem of course which applies both to a bonus and free drying would be that the farmers with big crops would reap the greatest benefit whereas the people most in need of assistance are the small farmers. For this reason it has been suggested that the number of bushels on which a bonus be paid to any one farmer would be limited. Should a bonus be decided upon it would not be taken out of the \$20,000,000 voted to deal with unemployment, but from some other vote.

Feed grain to livestock is looked upon as the most logical way of alleviating the western situation, but many cannot buy the livestock and in a number of districts shortage of water supply makes livestock farming difficult.

Recover Part Of Money Only

Winnipeg Police Succeed In Locating Only Part Of Loot Of Bank Robbers

Winnipeg, Man.—Detectives of central police headquarters made records in the first round-up of alleged bandits in the Transcona Bank of Toronto robbery on October 1, but they have had little success, despite diligent search, in locating the majority of the \$12,000 loot.

Ten persons were arrested in connection with the robbery, one is now under sentence of three years in the penitentiary, three others have been committed for trial, and charges are pending against the others. Only \$3,000 of the \$12,000 secured by the bandits has been recovered, and a "mystery man" is believed to have escaped with the missing \$9,000.

Not Asked To Testify

Friedrichshafen, Germany.—Dr. Hugo Eckener, master of the Graf Zeppelin, denied that he had been invited by the British Government to testify in its inquiry into the R-101 catastrophe. He stated that he had no intention of going to England for the inquiry, since he was not an eyewitness to the disaster.

W. N. U. 1902

Pledge Not Kept

British Government Protests Against Continuation Of Soviet Propaganda

London, England.—The British Government has made representations to Soviet Russia that the Moscow Government has not been observing its pledge against propaganda exchange between the two countries on the resumption of relations.

Rt. Hon. Arthur Henderson, foreign secretary, divulged in the House of Commons that this representation had been made as a result of inquiry into propaganda carried on by the Third Internationale in Great Britain and other parts of the Empire.

"I asked the ambassador to impress seriously on his government that continuation of this propaganda would be calculated to endanger relations between the two countries. The ambassador," continued Mr. Henderson, "said that the Soviet government would continue to observe the pledge but could not control the activities of the Third Internationale."

Loud Conservative cries greeted this statement, but the matter was allowed to drop.

Prospectors Drown In Northern Manitoba Lake

News Of Tragedy Reveals Tale Of Horrors

The Pas, Man.—Lakes of Northern Manitoba took their first human toll of the season when two prospectors, Charles Staback and Fred Miller, drowned. They crashed through this ice while travelling across Herb Lake. Details reaching The Pas from the north, indicate a typical northern tale of heroism lies behind the tragedy.

The men were travelling by dog team with a canoe on the sled. One prospector fell in while the other was able to save himself. He ran to the shore, not far away, obtaining a long pole and attempted to save his companion. Blundering through raging snow storm that swept the Herb Lake area, he met death with his companion. The pole was floating on the surface of the water to mark the tragedy for searchers. The bodies were recovered.

Brandon Entry Wins Egg Laying Contest

Race For Honors Was Between Saskatchewan and Manitoba Birds

Brandon, Man.—The white leghorn entry of John R. Beer, Brandon, won the eleventh Manitoba egg laying contest conducted at Brandon experimental farm. The closing weeks of the contest were exceedingly interesting as the final outcome was in doubt until the last few days. During the summer months there were several pens with an equal chance of winning the contest, but during the final month the race for premier honors was between the barred rock entry of W. C. Wroth's Sunton poultry farm, Weyburn, Sask., and the white leghorns entered by J. R. Beer.

At the close of the contest Mr. Beer's pen had a total of 2,270 eggs and 2,297 points, and the barred rocks owned by W. C. Wroth had a total of 2,207 eggs and 2,271 points.

Date Set For Atlantic Flight

Friedrichshafen, Germany.—The start of the huge passenger plane DO-X on its trans-oceanic flight to the United States has been tentatively set for November 12, from Lisbon. Under this arrangement, the DO-X left for Amsterdam en route to Lisbon November 2.

Entertaining Trade Delegation Tokyo, Japan.—The trade delegation of the Canadian Chambers of Commerce is being given an opportunity to meet Japanese business men by a series of luncheons, which are being given by Hon. H. M. Marler, Canadian minister to Japan.

Was World's Oldest Clergyman

Magilligan, Northern Ireland.—The Rev. Hugh Butler, so far as known here, is the world's oldest clergyman in point of service and years of life. He is dead, aged 104. He had been minister of the Magilligan Presbyterian Church nearly 79 years.

France's daily toll of injured on streets and highways is 290.

YOUNG CANADIAN POET

Interesting camera study of Nathaniel Benson, young Canadian poet, who was recently married in Hart House Chapel, Toronto, Ont. His bride is former Miss Emma Wright.

Pool Guarantees

Information In Connection With Wheat Pool Loans Will Be Given In January

Winnipeg, Man.—At about the end of January, "losses" to the Prairie Provinces in connection with their backing of Wheat Pool loans, will be definitely known, according to the statement of Premier John Bracken, of Manitoba. Mr. Bracken, who says that the prairies may lose more than \$10,000,000 unless wheat prices improve, considers that the position of the provinces will not be determined until the unsold 1929 grain is disposed of—namely, he says, in about three months.

No ultimate loss will accrue to Alberta in any case, states Premier J. E. Brownlee, who claims that "it will all be taken care of by the Wheat Pool." He states that the prairie governments are not being pressed to meet the guarantees they offered to the lending banks in character of crop-loans talk as "a matter of speculation." No stand on the question has been taken by Saskatchewan's premier, Dr. J. T. M. Anderson, beyond saying that what the governments demand a statement necessary it will be made.

Premier Bracken at a luncheon described the \$10,000,000 loss figure as "somebody's guess."

Guests Of King George

London, England.—The entire Canadian Delegation to the Imperial Conference were guests of His Majesty at a reception at the Buckingham Palace, October 29.

SWINE CLUB COMPETITION

Ernest Haughton and Hilbert de Leeuw, 14-year-old Kamloops boys, who recently outmatched all competitors in the annual Canadian Pacific Railway British Columbia Swine Club Competitions. These lads will later compete against the prairie club winners, at Toronto, for the Dominion championship. Seen in the picture left to right, George Bailie, assistant superintendent British Columbia District, Canadian Pacific, who presented the trophy and medals to the lucky lads, Ernest and Hilbert, who, in addition, receive a free trip to the Royal Winter Fair at Toronto.

Reduce Initial Payment

Wheat Pool Makes Reduction On Initial Payment On Barley

Winnipeg, Man.—A five-cent-per-bushel reduction, in the initial payment on barley was announced by the central selling agency of the Canadian Wheat Pool. Initial payment on the basis of No. 3 C.W. barley at Fort William will thus amount to 20 cents a bushel.

The reduction applies to all the malting grades and No. 3 C.W. Payment spreads on the lower grades have been narrowed somewhat, and are as follows: No. 4 C.W., initial payment, 17 cents; No. 5 C.W., 16 cents; No. 6 C.W., 14 cents, with a minimum payment of 12 cents a bushel on lower grades.

The Pool's initial payment was appreciably higher than the street prices paid by the trade for barley, it is pointed out by the coarse grains committee of the central board in explaining the reduction. Since the recent slump in barley prices, prices quoted have been particularly lower on the higher grades produced in Manitoba. This and "increasing deliveries of barley to the Pool made it absolutely necessary to reduce the initial payment," the Pool announcement said.

Changes In B.C. Cabinet

Reorganization Completed With Securing In Of New Officers

Victoria, B.C.—Reorganization of the cabinet of Premier S. F. Tolmie was completed with the swearing in of the re-arranged slate before the Lieutenant-Governor, Hon. R. R. Bruce.

Hon. F. B. Burden retires from the government and his place as Minister of Lands is taken by Hon. N. S. Loughheed, former Minister of Public Works.

Hon. R. W. Bruhn, former president of the council, takes the portfolio of Public Works.

Hon. W. C. Shelly, former Minister of Finance, becomes President of the Council.

Hon. J. W. Jones, former speaker of the Legislature, becomes Minister of Finance.

Mr. Burden will go to London as agent-general for the province, succeeding F. A. Pauline.

Ban Reparations Talk

Berlin, Germany.—The foreign affairs committee of the Reichstag rejected all motions to raise the question of reparations revision in this session. At the same time it called for an end to the situation wherein a "disarmed Germany is surrounded by ever increasing preparations for war."

EMPIRE RADIO STATIONS MAY BE ESTABLISHED

London, England.—At the Imperial Conference, the committee on communications, which has been considering the extension of an Empire broadcasting station, encountered both financial and technical difficulties. The cost of the central station, which would be built in England, is estimated at 40,000 pounds, or about \$194,000 a year for the first five years. How the cost would be allocated has still to be determined.

Relaying stations would have to be constructed at a number of points to ensure proper reception. The idea would be to broadcast a regular radio program, including news bulletins, throughout the Empire. According to the skeletonized plan already submitted there would be four separate hours of broadcasting, and Canada, owing to the difference in time between the Dominion and the Old Country, would have devoted to it the early morning hours, so that the program would arrive before Canadian radio listeners had gone to bed.

The Sankey committee, headed by the Lord Chancellor, will soon have its draft report ready for the Imperial Conference. The report, dealing largely with constitutional issues, covers three main grounds; the channels of communications to be adopted as between Britain and the Dominion, the advisability of extending in practice the machinery of Dominion autonomy as recognized in the Balfour report of 1926 and the establishment of an Empire tribunal for the hearing of disputes between different units of the Empire.

The appointment of governor-general is understood to come under review. The British Government, it is learned, holds that advice on a proposed appointment given by a Dominion Government to the King should continue to pass through United Kingdom channels.

The constitutional committee members were so intent on their work recently that they did not adjourn for luncheon, being content to discuss the political situation between sandwich munches.

One economic sub-committee worked on the application of a quota scheme to British purchases of canned fruit, fish and dairy products.

The Canadian Prime Minister, Rt. Hon. R. B. Bennett, has entirely recovered from his recent indisposition.

Home Government Will Not Interfere

Dominions May Choose Governor-Generals For Appointment By King

London, England.—The Daily Herald says one of the most important results of the Imperial Conference would be elimination of interference of the home government in selection for governor-generals for the dominions.

The paper said a method of procedure had been worked out in committee, and that in the future each governor-general would be appointed by the King solely in consultation with and on the advice of the dominion government.

Prince's Horses Win Prizes

Calgary, Alberta.—Eight Clydesdale horses and one Percheron exhibited by the Prince of Wales' ranch at the Pacific International Livestock Show at Portland, Oregon, carried off eleven first prizes and one second in the show ring, according to word received from W. L. Carlyle.

Penalties For Butter Adulteration

Ottawa, Ont.—The question of more severe penalties for the adulteration of butter is under the consideration of Hon. Robert Weir, Minister of Agriculture. A request for such action was recently made to Major Weir by the Montreal Produce Association.

May Accompany Williams

Milwaukee, Wis.—Sir Hubert Wilkins has invited Lincoln Ellsworth, United States explorer, to accompany him on the proposed submarine trip to the North Pole. Sir Hubert plans to start the 2,100-mile journey under the sea to the pole next June.

CANADIAN NATIONAL RAILWAYS

Glee Club's Boxing Night.

The Glee Boxing Club will commence the winter season training this week, with a series of bouts billed for tomorrow night, Nov. 7th, at Christie's Hall, starting at 8.30. A number of good sparring have signified their intention of being present, and among these are Pokey Hontas, from a nearby Reserve Those wishing to join this club are asked to report to James Christie, heavy weight boxing champion

The Moose Dance.

Another record crowd was present on Halloween at the dance given in 'Moose Hall'; a big delegation headed by Wilf Gallinger coming out from the City, where they had been attending a masquerade dance. Wilf, looked swell, garbed as a Pirate King. The hall had been nicely decorated for the occasion, and the other decorations were quite appropriate. Barths supplied the music. The winners of the Spot dance were Mr Barnett and Mary Gamble.

Mr. August Meredith Appears

His Honor Judge Crawford held a short session of the District Court in Stony Plain on Friday afternoon last, when the adjourned case of Sommerfield & Mayer vs. Meredith Brotheas was taken up. Mr August Meredith was on the stand; and evidence in rebuttal was given by Mr Ed Sommerfield; at the conclusion of which the Judge reserved judgment. The decision was handed down on Monday by His Honor Judge Crawford, and was in favor of the plaintiffs for the amount of the claim and costs. Geo. J. Bryan for the plaintiffs; A F Duncan for the defendants.

Muir Lake Community.

There will be a Community dance in Muir Lake hall the evening of Friday, Nov. 21st. Good music.

A service will be held in the Hall Sunday Evg. next at 7.30. Topic "God's Community Hall. All welcome!

Several of the local big game hunters have been out in the woods this week after moose, and a few have been successful in getting their buck.

Motor to Vancouver via Jasper.

Early completion of the Jasper Highway was urged at a joint booster luncheon of A. M. A. and the National Highway Systems Ass'n held in Edmonton last Friday. The joint gathering will undoubtedly result in the work of the Highways Ass'n being largely advanced. Two meetings in the interests of the highway have been held - one at Blue River, B. C. and one at Jasper. The purpose is to collect data and exercise its influence by uniting all the forces interested in highway development

When completed, local motorists will be able to travel this road by car from the Meridian corner, clear thru to Vancouver.

Spruce Grove News

Spruce Grove Councillors met on Monday last in the Municipal hall.

The Grove elevators appear to be getting all the grain grown at Golden Spike this season, as processions of loaded wagons are seen practically every day, coming up from there.

Local juveniles are pleased at the prospect of a skating rink being established here the coming winter. The rink is to be located on the Albert Wirtz lots, where there is a good well; and the preliminary work is being done by Clarence Brox.

The local station is at present in charge of Mr Morrison of Edson, during the absence of Mr J Elder, who is on a motor trip to Calgary and other points in the South. Mrs Elder accompanies him.

The Reeve and Councillors of Spruce Grove Municipality have a sale of lands for taxes bid to be held Wednesday, Nov 12.

Local boys behaved themselves very well on Halloween, no disturbance or pranks worthy of note being reported.

Mr Ducholke is out West this week with a party of hunters.

Threshing is now about all finished hereabouts.

Heard at the Meating-Place.

"How'd your potato crop turn out this season?" asked the Duke of an old customer yesterday.

"Splendid, old man; splendid," replied the other. "D'ye know, some are as big as peanuts, some as big as peas; and acourse there's a lotta little ones."

In answer to an advt. inserted in 6 papers in the province, 247 unemployed teachers have registered with Mr Barnett, Sec-treas. of A.T.A. These include a large number of first as well as second class teachers, and a few with academic standings. The bulk of the jobless ones live in southern Alberta.

Here and There

(622)

Possibility of Ghanda having reached the zenith of his power in India was voiced by Sir George Grey, former deputy chief of General Staff India, who sailed aboard S. S. Duquesne of Richmond for Liverpool recently. "Time will very likely cure India of her ills, as it has done before," was Sir George's view.

The hunting grounds of eastern Canada abound with big game and with wild fowl of every description as a result of wise game laws and conservation measures of the various provinces, according to A. O. Seymour, general tourist agent, Canadian Pacific Railway, who announces that opportunities for hunters in Quebec, Ontario and the Maritime Provinces were never better than in the present season.

Hon. C. A. Dunning, formerly minister of Finance in the King Administration, has accepted the position of vice-president and general manager of "Lucerne in Quebec," and will enter upon his duties at once. The appointment was made public recently by E. W. Dettly, a resident of that province. "Directors of 'Lucerne in Quebec'" make this announcement with a great deal of satisfaction, said Mr Dettly in view of Mr Dunning's achievements in Canadian affairs and his outstanding personal character.

Alexis Hodgson, well known Montreal big game hunter, back in that city from Banff and the Canadian Rockies reports that he shot one moose, one elk, one black bear, two deer and two Rocky Mountain goats. He noted added a grackle to this total which however got away after a six day chase. "Why on earth am I Canadian? I do not go to Banff for their hunting beats me," Mr Hodgson declared, adding that cost was reasonable and big game abounded there.

Unwilling of the memorial to Blais Carman, noted Canadian poet, took place at Fredericton recently and was broadcast all over the Dominion by Canadian Pacific radio network. Sir George Foster, well known Canadian statesman, spoke, expressing the sentiments of all Canadians in regretting the loss of the great national bard.

A French-Canadian wedding of a hundred years ago was one of the high lights of Quebec's third Folk Dance, Folk Songs and Handicrafts Festival which was given at the Chateau Frontenac in that City October 16-18. Dances of Old and New France and of music from the prairie provinces were among the other features of the festival which was crowned to have been the most successful of the many produced under the auspices of the Canadian Pacific Railway.

The Nova Scotia apple crop from the Annapolis Valley is now valued at \$3,000,000 and the significance of this figure will be realized when it is recalled that the return from last year's crop was approximately \$1,000,000. Growers affirm there never was a better year in the history of the industry than the present.

In 1900 there were 11,906 acres under tobacco in Canada which yielded 11,267,000 lbs. Preliminary estimates for 1930 indicate an area of over 40,000 acres and a production of around 35,000,000 pounds. The greatest increase is in Ontario which grew 30 per cent of the crop. In 1900 and 75 per cent this year.

CHAPTER III.—Continued

"But—that's," she said with sudden courage, "Did you hear what that dear old man said to me to-night? He said: 'Give him plenty of rope to run on.' And you'd be freer without me, Nick, on this wonderful trip—a thousand times freer. You've given me the happiest week of my whole life. Only—only I should want you to come back to me again."

Nick looked at her. The moon was so bright that he saw distinctly the sweet curve of her lips, and the soft, dark hair above her brow. Something in her nearness made him curiously inarticulate, and she misconstrued his silence.

"I could go back," she hesitated, "and—when you got tired of roaming (and I suppose even the most confirmed vagabond has such moments), why—I'd be waiting, and—glad to see you."

She could no longer control the tremble in her voice, and the sound awakened Nick from the trance her words had brought upon him.

"So that's your problem?" he said quietly. "Well, my precious little wife, I'm relieved to hear that you'd be glad to see me! For just a moment I wondered if you were weary of your bargain. As for myself, Gay, I don't care for that long rope, it's so long that I can't see you at the other end. I don't want my freedom without you to share it. I know I'm a kid in lots of ways, dear—too much of a kid to

know how dearly I loved you, even a week ago. But I know now. That answers your problem, doesn't it?"

He would have kissed her, but she moved from him a space, and said, her voice still trembling: "Oh, Nick! I'm always so sure. Are you never afraid of—Life?"

"No," Nick answered. He sat quite still, looking down on the moonlit shadows in the valley. "No," he repeated. "Perhaps if I were a woman."

"—still—," my mother was not afraid. It was she who made me see life as I do. She was a poet, my mother. She didn't often put her poetic fancies into words; but the night she died—"

Again Nick seemed lost in thought; but as Gay's hand slipped into his he clasped it hungrily, and said: "I've never told this, Gay, even to Aunt Nellie, who knew all my secrets. My mother called me to her, because, though the doctors hadn't told her, she knew it was the end. I knew it, too. Talk of being afraid of life! I was afraid then. The thought of losing my precious mother, and of living in my uncle's house without her to defend me, was pretty bleak. She knew that, and I suppose she wanted to give me something to hold onto."

Nick paused a moment, his eyes big and dreamy.

"I can see her now, lying there with her two beautiful braids falling over her shoulders. The window was open and the breeze that blew across the lamp made little flickering shadows on the pillow. She was pale; but, boy as I was, I was conscious of an unearthly beauty in her face. She said (I have never forgotten one word): 'If I don't get better, sonny, there's something I want you to remember. Life won't be easy for you without me. Your uncle's a hard man, dear. He won't understand you, or help you to do the things you'll want to do. The next few years may not be hap-

py years; but you must remember that life is a highway—a long, long highway that we must travel whether we will or no. If you're like most lives, Nick, you'll find weary stretches of dusty road that seem to go on forever, and ever, and ever. But usually, when the way seems hardest, and your endurance is almost at an end, the road will lead into a cool woodland. You'll smell the ferns—you'll hear a brook rippling across the stones, and the song of a bird. Or, after a heart-breaking effort to keep your feet in the straight and narrow path that they must tread, son, if you're to know real happiness, you'll reach a hill-top, and see 'the earth and the fullness thereof' stretched out before you; and the sight will make everything worth while."

"And as you look back on your journey, Nick, you'll forget those weary, hot, interminable miles. You'll remember only the brooks, and the birds, and the grateful shade along the way. Those are the things that one remembers at the journey's end. Life is a highway, but you can make it a happy highway. Promise me that you will try."

Nick drew a quivering breath, as if the repeating of his mother's words brought back too vividly the night she spoke them. He clasped Gay's hand a little tighter, and cleared his throat.

"Perhaps most mothers wouldn't have talked that way to a boy like me; but she knew, you see, what I was up against. And the words sank in, Gay. As I grew older they became what she meant them to be—a refuge. I used to think of them when things seemed unfair to me, and they kept me from bitterness. I'd say: 'Don't you care, old man, after this long, hard pull those brooks and birds can't be far ahead,' and my waning courage would come back. The thought steadied me as my mother's hand on mine had steadied me years before. They were all that she had to leave me—those words, Gay, but they have been a wonderful legacy."

There was a silence until Nick spoke again, turning a little to look into the girl's face.

"I thought, that morning a week ago when I looked the doot, and started on my journey, I thought then that the weary miles were over—that I'd reached some of the shade my mother promised. But I only thought it then, Gay! Now—now, dear comrade, I—know."

It was Gay's turn to draw a quivering breath which seemed to be echoed by the pines above them.

"Gay," said Nick quietly, "tell me you're not afraid to tramp the dusty highway with me."

And still Gay did not speak. She arose with a gesture that brought him to her side, and they stood together looking off at a scene of moonlit beauty that might, indeed, have been the "ends of the earth." And then she answered.

"No," she said, slowly, as if trying desperately to be honest, "no, dear, I'm not afraid. Oh, Nick," she cried, and faced him, her eyes like stars. "Oh, Nick, life is so wonderful! Just now I'm not afraid of—anything!"

CHAPTER IV.

Gay did not know that she touched one of life's mountain-peaks when she spoke those words. Later she was to understand, and look back upon that hour as something precious. For life's big moments do not last. Their beauty perishes like the beauty of a rose, leaving only a fragrance and a memory.

Standing there in the moonlight with Nick's arm about her, Gay felt a sense of security and happiness that, in her ignorance of life, she thought must last forever. Nick loved her; and she was not afraid! Nothing would ever make her afraid again; yet four months later, when they stood together on another hillside, Gay stared at her—not fear for herself and the big mystery before her, but fear that because of it Nick's coveted freedom was at an end.

It had been a glorious four months. Leaving the "rusty silver" with Mr. Bartlett, they had gone forth on foot, because Gay wouldn't let Nick change his right-hand plans.

"That's long," the old man said at parting. "It'll be harder to get just what he set out to do; and there's the railroad to bring you back if either of you gets sick or caves in on the job. You got plenty of money

Mindard's Liniment refreshes the scalp.

Purity Flour Cakes Keep Fresh

A cake shown at Toronto Exhibition made from this Recipe kept fresh for five days in the heat and air without protection. Make it today—with Purity.

1 cup of white sugar, ½ cup butter, cream together. Add 1 beaten egg yolk, ½ cup milk and water (darker), mix 3 teaspoons baking powder in ½ cup of Purity FLOUR, sifted, 1 teaspoon vanilla, beat egg white stiff and stir in mixture. Bake in moderate oven (375°) for 25 minutes.

PURITY FLOUR

Purity is a strong, rich flour made from Western hard wheat—gives you that "better flavor" baking you want. "Set the best for bread."

Sold 50c for Purity Flour Cakes.

Western Canada Flour Mills Co. Limited
Toronto, Ont.
Winnipeg, Canada

Look for our Company's name on the Purity Flour sack. It is your guarantee of quality from a responsible milling concern.

Four Doses Relieved Bad Attack of Cholera

Mr. W. J. Cooper, Maughan, Alta., writes:—"A year ago last spring I arrived in Canada with my family, and one of my boys, aged six, was suffering very much with cholera. When we arrived I had a few hours to wait, and one of the attendants at the station about it, and he asked me if I had ever tried Dr. Fowler's Extract of Wild Strawberry. I had never heard of it in England, so he told me I could get it in Winnipeg. I am pleased to say I had only to give the child four doses and he got well and was quite cheerful by the next morning."

along, Nick? I ain't advisin' you to spend any more'n's necessary; but there's nothin' makes for comfort on a journey like a full pocketbook. If you need more'n you got I'll be glad to supply you till it's convenient to pay back."

"That's mighty kind of you," Nick answered, "but I think I've enough to see us through, thanks to my late uncle's not making the will in which he threatened to disinherit me! Thank you for housing the silver for us, Mr. Bartlett. We'll call for it sometime during the next two years."

"All right sonny; but don't let that little lady get tickered out. If she does, just ship her back to me and I'll be proud to look after her while you're gallivantin' round the world. Good-bye, m'am. I'd be pleased to have you drop me a card from every port."

"I shan't forget to," Gay promised; then added, as something watchful in his eyes caught at her heart, "Will you kiss me good-bye in place of the father I can't remember?"

"That I will," he replied heartily. "If you'll guarantee it won't make no hard feelin' betwixt Nick and me! Good-bye, children. Don't forget your Uncle Sam when you're off a-conquerin' in the universe."

Nick grinned.

(To Be Continued.)

Little Helps For This Week

"Be ready to every good work."—Titus iii. 1.

Into thy charge hath He not given space,
All of thine own to make look green and sweet;
To be a haven unto troubled souls,
To be a resting-place for weary feet?

Doth He require at thy hands aught
but this,—
To let thy garden show itself so fair,
That others seeing it shall straight-
way go
And till the portions given to their care?

And what is work? Is it only some task of hand or brain? Is it only accomplished when we see tangible evidences of our toil? Or is it, too, the checking of a petulant or thoughtless word, the subduing of an unworthy desire, the rising above the subtle temptation that woos us to spiritual indolence, the striving to keep fresh and blooming the garden-plot God has given us all for our own, and where only by heart-work the fair flowers of "Love," "Joy," and "Peace," can be brought to bloom?

Old age is a long shadow lying in the cold evening sun, but it points towards the morning.

FREQUENT PAINS?

NEVER let a throbbing head interrupt your shopping! Or other pain that Aspirin ends so quickly. These harmless tablets are an antidote for the most acute pain. Relief is almost instantaneous. Taken in time, they will break up a cold and head off discomfort. They'll relieve your suffering from neuralgia, neuritis, or the like at any time. Thousands of

women depend upon Aspirin tablets every month to spare them from those pains peculiar to women. These tablets do not depress the heart; they may be used frequently as there is need of their quick comfort. So, it's folly to endure any pain that Aspirin tablets could relieve so promptly. Get the genuine, which is always to be had at any drugstore.

Victim of Glare Lights.

The high, narrow grades at places on the Baseline prove to be too much for visiting motorists. On Saturday night a sedan with Michigan number plates and two occupants aboard turned turtle off the roadway between the Grove and Winterburn hall, caused by the glaring lights from a passing motor car. The occupants were rescued from their awkward position and taken back to Edmonton by two Stony Plain youths; while a motor crane came out from the City Sunday morning and rescued their car.

Open Seasons for Game

Following are open seasons for game—
Ducks and Geese—Sept. 16 to Dec. 14th.
Hungarian Partridge—Oct. 1 to Nov. 14.
Prairie Chicken—Oct. 1-15.
Pheasant—No open season.
Deer—Nov. 1 to Dec. 14.
Oute, Nov. 1 to May 1.
Beaver, No Open Season.
Muskrat—Between North Saskatchewan and Tp. 91, March 15 to April 30.
Game Licenses can be had at Sun-Office, where copies of the Game Act can be seen.

Stony Plain and District

Monday next, Nov. 10, being a public holiday, all places of business in Stony Plain will be closed.

Mr Otto Oppertshausser, a Rochford merchant, paid Stony a visit on Saturday.

On his way back from an inspection tour of the western detachments, Insp. Hancock was a visitor, Saturday evening, at the local detachment of the A. P. Police.

Jack Messenger, Entwistle, was a business visitor in Stony on Tuesday.

Jac Ursel Jr. returned on Sunday night with his hunting party, and reports having seen more big game hunters than big game, up in the big game country.

Members of the Walther League had a very enjoyable time at their Spook Party at St. Matthew No. 1 on Halloween.

A delegation of local Freemasons attended the ceremony on Saturday afternoon last, in Edmonton, of laying the corner-stone of the new Masonic Temple; among these being: Messrs John H. Lory, Louis Kowensky, T. R. Scott, Jas. Malloch, T. Graden.

Meridian Lodge held its regular monthly session in the Masonic Hall on Tuesday evening.

Messrs A. E. Michael and O. Hoffman returned on Monday noon from their hunting trip with their moose, and now their friends are being supplied with dark meat. The Editor knows where a moose mulligan is in course of preparation.

The case of Nick Schmigel-ski, charged with shooting big game out of season, will come up for a hearing in Magistrate Williams' court on Tuesday next.

Hardwick's General shipped several more cars of spuds this week—one car containing all "No. 1" grade going East as far as Ontario.

The case of McCulla versus Smalchariz, for damage to a car, is down for a hearing in the District Court, Edmonton, today.

A meeting of the Rifle Club was held on Monday afternoon, when the program for the big shoot starting on Saturday, was decided on. There is a good list of prizes to be competed for on that date.

An added attraction at the boxing bouts at Christie's tomorrow evening is the "go" arranged between One Round Louie and "Sparks," with Bill Bousier in the latter's corner.

The local Public and High schools will be closed today and tomorrow, while teachers are in attendance at the convention of school teachers of Northern Alberta. The schools will re open on Tuesday morning.

It is expected that the Sunday evening Lutheran services in English, at Stony Plain, will shortly be resumed, with the Rev. Kuhring in charge.

A delegation of Old-timers from this district attended a memorial service in Edmonton on Sunday to the late Rev. Dr. McQueen.

Liga Councilors meet tomorrow in Stony Plain town hall.

Calendar.

NOVEMBER—
6—Town Council meets.
7—Liga Councilors meet.
10—Thanksgiving Day.
11—Local School reopens.
14—Dance at Moose Hall.
21—Dance at Muir Lake.
28—Dance at Moose Hall.

Accident on Baseline.

On Tuesday evening, while Mr. Len Ingle, a Blueberry farmer, was motoring home from Edmonton in his sedan, he drove up to the rear of a wagon driven by Mr. Mike Soldan, another Blueberry farmer. The accident happened on the Baseline, near the Winterburn Store.

Mr. Ingle had as passengers Mr. and Mrs. Specker of the Manly district.

On seeing the obstruction ahead, Mr. Ingle turned sharply to the left, but apparently lost control of the car, as the latter turned into the ditch, and rolled over several times—at least it appeared so to the occupants.

Mr. Ingle had his head badly lacerated, and was taken back to the City and removed to an hospital.

Some friendly motorists picked up Mr. and Mrs. Specker and brought them to Stony Plain, where it was found Mrs. Specker had her nose broken. The latter was attended by Dr. Walton, after which the patient was removed to his home.

Mr. Specker was riding in the rear seat, was thrown violently against the front seat rail, and escaped with nothing more serious than a bruised hip on the jaw.

THE SERVICE GARAGE.

We have an important announcement to make to our many Friends and Patrons, which we believe will prove interesting and at the same time, beneficial to all. On and after November 1st, 1930, we are going on a strictly Cash Basis. All Parts, Accessories, Gas, Oil and Grease and Labor will be sold for Cash only. We feel that by doing business on this basis we will be enabled to buy your requirements cheaper, thereby passing on the benefits to our Customers.

We are convinced that a distinct saving will be provided for you, and feel sure that this partnership between us will prove advantageous to all.

This plan does not include the purchase of New or Used Cars. We have a very liberal offer to make on Cars whereby they can be purchased on a deferred payment plan.

Call in and let us tell you about it.

Quebec Lt.-Governor Visits Festival

His Honor, the Lieutenant-Governor of the Province of Quebec, Hon. H. G. Carroll, (right in above illustration) and George Stephen, vice-president in charge of traffic, Canadian Pacific Railway, are here shown photographed against a background of handicraft work in the section of the long series of similar folk song and handicraft revivals covering the whole Dominion that have devoted to that work. With them are shown Madame

Napoleon Lachance and Phileas Bedard, habilitant handicraft worker and folk song artist and two of the most colorful participants in the festival, which was opened by His Honor, October 16 and closed October 18, and was one of the most successful of the long series of similar folk song and handicraft revivals covering the whole Dominion that have been sponsored by the Railway in the past few years.
